OBJECTIVE

Data Scientist and Software Developer with expertise in **Python (OOP), SQL, and AWS**. Experienced in building web apps with **Django, React, Node** and **Express**, and deploying with **Nginx** and **Gunicorn**. Skilled in **machine learning, data analysis**, and **API development**. Proficient in **DevOps** and **Linux** using **Git, Docker**, and **AWS** tools.

SKILLS SUMMARY

- **Programming Languages** : Python(OOP), SQL, JavaScript.
- **Cloud Services (AWS)** : EC2, RDS, Lambda, IAM, S3, Secrets-Manager, CloudWatch, CodeCommit, CodeBuild, Codedeploy.
- **Operating Systems**: Ubuntu, Bitnami, Linux (Command Line Proficiency).
- **Databases & Tools**: MySQL, Power BI, Microsoft Office , Jupyter, Google Colab.
- **Frameworks, Libraries & Web Servers**:
 - **Data Science & Machine Learning**: Pandas, Numpy, Scikit-learn, LangChain, SQLAlchemy.
 - **Web Development**: Django, DRF, React, Express, Node.js.
 - **Web Servers & Deployment**: Nginx, Gunicorn, Apache2.
 - **Machine Learning Algorithms**: Linear Regression, Logistic Regression, SVM, KNN, Random Forest, Decision Tree.
- **Core Concepts**:
 - Data Warehousing, ETL, OLTP, OLAP, Data Analysis, Applied Statistics, API Development, Microservices Architecture.
- **DevOps Tools (CI/CD)**: Git, GitHub, Docker, AWS CodeCommit, AWS CodeBuild, AWS CloudWatch, CronJobs.
- **Soft Skills**: Leadership, problem solving, Presentation , communication

EXPERIENCE

- **Elcom Digital** Noida sector-15
Software-Developer.
Project – NoSkySense <https://sense.nosky.ai> Mar 2024 – Present
 - **ETL & Dashboard**: Designed and implemented an ETL pipeline to extract data from **Google Drive**, transform and load it into **AWS RDS**, integrate **Zoho Analytics** for reporting, and host the dashboard on **AWS S3** for seamless access.
 - **Website Backend API**: Developed and optimized RESTful APIs using **Node.js**, ensuring seamless data flow and communication between the frontend and backend systems of the **NoSkySense** website.
 - **Payment Integration**: Integrated **Razorpay** for secure payment processing.
 - **Desktop Backend API**: Built backend services using **Django** to upload data from **Tally software** to **AWS RDS MySQL** for centralized data storage.
 - **Gen AI Integration**: Integrated **Gen AI** with **WhatsApp** for generating reports based on user queries, which were sent back to the user’s WhatsApp number.
 - **Database & Cloud Integration**: Managed MySQL with AWS RDS, secured credentials using AWS Secrets Manager, and monitored performance with CloudWatch.
 - **Version Control & Deployment**: Utilized **AWS CodeCommit** for version control, **Git CMD** for command-line operations, and **AWS EC2** for hosting. Implemented **CI/CD** pipelines for automated deployment and continuous integration.
- **Automaton AI** Pune
Data science(Project) Dec 2022 - Apr 2023
 - Actively contributed to various data science projects, leveraging expertise in machine learning, data analysis, and visualization.
 - Involved in **data preprocessing** and **exploratory data analysis (EDA)**, working with complex datasets to identify patterns, trends, and outliers.
 - Played a significant role in **model training** and **hyperparameter tuning**, optimizing the performance of machine learning algorithms to enhance predictive accuracy.

EDUCATION

- **PG Diploma in Data Science and Business Analytics** Delhi, India
Reyedin Techstack Pvt. Ltd April 2022 - Nov 2022
Courses: Excel, Python, language , Analysis Of Algorithms, tableau, Machine Learning, Networking, SQL
- **Bachelor of Commerce.** Gaya, India
Magadh University April 2020- April 2023

HOBBIES AND INTERESTS

- Sports: Playing cricket and running keeps me engage and physically fit.
